STATE OF NEVADA

DWAYNE MCCLINTON
Director

MATTHEW BROWN
Deputy Director

GOVERNOR'S OFFICE OF ENERGY
600 E. William Street, Suite 200 | Carson City, NV 89701
energy.nv.gov | (775) 687-7189

NOTICE OF ADOPTION OF THE 2024 INTERNATIONAL ENERGY CONSERVATION CODE (IECC)

Pursuant to Nevada Administrative Code (NAC) 701.185(1) as amended by Legislative Council Bureau File Number R153-17, the Director of the Governor's Office of Energy (GOE) adopts by reference the International Energy Conservation Code (IECC) in the form most recently published by the International Code Council (ICC) unless the Director gives notice that the most recent publication is not suitable for Nevada.

On August 18th, 2024, the IECC published the 2024 version of the IECC and the Director of the Governor's Office of Energy considers it to be suitable for Nevada, and is adopted in this state.

At this time the GOE is offering the opportunity for Nevada based entities and residents to provide reasons this adoption should be rescinded. Please submit any correspondence related to this by November 15th, 2024 to info@energy.nv.gov. If sufficiently compelling evidence is received, hearings will be held to make a final determination pursuant to NAC 701.185(3).
