Colorado River Commission of Nevada (CRCNV)
Renewable Portfolio Standard (RPS) Compliance Report for
Calendar Year 2024

1. Introduction

The Colorado River Commission of Nevada (CRCNV) contracts for hydropower from Western Area Power Administration (WAPA) for hydropower from the Boulder Canyon Project — Hoover Dam, the Salt Lake City Area Integrated Project, and Parker-Davis Project.

The CRCNV delivers hydropower and market power to its customers located at the Basic Management Industrial (BMI) Complex¹ near Henderson, NV. The CRCNV is a full-requirements energy provider for those customers. The CRCNV has contracts with wholesale utilities and other hydropower contractors, but the CRCNV is not the load serving electric provider for those customers.

2. Information requested - NRS 704.7825 (4)— (Section 9 of SB 358 (2019))

(a) The amount of electricity which the provider generated, acquired or saved from portfolio energy systems or efficiency measures during the reporting period and, if applicable, the amount of portfolio energy credits that the provider acquired, sold or traded during the reporting period to comply with its portfolio standard.

For the reporting period of calendar year 2024, the total load of the BMI Complex was 118,283 MWh. The CRCNV had 94,971 hydropower PECs available to meet the RPS standard. The CRCNV did not acquire, sell, or trade any portfolio energy credits to comply with its portfolio standard.

2024 Hydropower PEC's	2024 Retail Load (MWh)	2024 RPS Compliance
94,971	118,283	80%

¹ The CRCNV's customers at the BMI Complex include Henderson WC, LLC (formerly Basic Water Company), Borman Specialty Materials, Lhoist North America of Arizona, Inc., Titanium Metals Corporation, and Pioneer Americas LLC dba Olin Chlor Alkali.

2. Information requested - NRS 704.7825 (4)— (Section 9 of SB 358 (2019)) - Continued

In addition to the customers at the BMI Complex, the CRCNV has eighteen other customers to whom it sells hydropower but does not have a load serving responsibility. The CRCNV's other hydropower customers are responsible for meeting their own RPS requirements or are customers of a provider that is responsible for meeting the RPS.

(b) The capacity of each renewable energy system owned, operated, or controlled by the provider, the total amount of electricity generated by each such system during the reporting period and the percentage of that total amount which was generated directly from renewable energy.

The CRCNV purchases hydropower from the federal government and resells that hydropower to its customers. The CRCNV does not currently own, operate, or control any renewable energy systems.

(c) Whether, during the reporting period, the provider began construction on, acquired or placed into operation any renewable energy system and, if so, the date of any such event.

During the reporting period, the CRCNV did not begin construction on, acquire, or place into operation any renewable energy system.

(d) Whether, during the reporting period, the provider participated in the acquisition or installation of any energy efficiency measures and, if so, the date of any such event; and

During the reporting period, the CRCNVE did not participate in the acquisition or installation of any energy efficiency measures.

(e) Any other information that the Commission by regulation may deem relevant.

The CRCNV has no further information to offer at this time.

NRS 704.78253 Reports by certain providers not subject to jurisdiction of Commission. A provider of electric service that is subject to [NRS 704.787](#) shall, on or before July 1 of each year, submit to the Director of the Office of Energy appointed pursuant to [NRS 701.150](#) a report that contains the information described in subsection 4 of [NRS 704.7825](#).

(Added to NRS by [2019, 12](#))

2024 Nevada Revised Statutes

Chapter 704 - Regulation of Public Utilities Generally

NRS 704.7825 - Reports; exceptions; regulations regarding additional reports.

Universal Citation:

NV Rev Stat § 704.7825 (2024) ○

[◀ Previous](#)[Next >](#)

1. Except as otherwise provided in subsection 6, each provider of electric service shall submit to the Commission an annual report that provides information relating to the actions taken by the provider to comply with its portfolio standard.
2. Each provider shall submit the annual report to the Commission after the end of each calendar year and within the time prescribed by the Commission. The report must be submitted in a format approved by the Commission.
3. The Commission may adopt regulations that require providers to submit to the Commission additional reports during each calendar year.
4. Each annual report and each additional report must include clear and concise information that sets forth:

- (a) The amount of electricity which the provider generated, acquired or saved from portfolio energy systems or efficiency measures during the reporting period and, if applicable, the amount of portfolio energy credits that the provider acquired, sold or traded during the reporting period to comply with its portfolio standard;
- (b) The capacity of each renewable energy system owned, operated or controlled by the provider, the total amount of electricity generated by each such system during the reporting period and the percentage of that total amount which was generated directly from renewable energy;
- (c) Whether, during the reporting period, the provider began construction on, acquired or placed into operation any renewable energy system and, if so, the date of any such event;
- (d) Whether, during the reporting period, the provider participated in the acquisition or installation of any energy efficiency measures and, if so, the date of any such event; and
- (e) Any other information that the Commission by regulation may deem relevant.

5. Based on the reports submitted by providers pursuant to this section, the Commission shall compile information that sets forth whether any provider has used energy efficiency measures to comply with its portfolio standard and, if so, the type of energy efficiency measures used and the amount of energy savings attributable to each such energy efficiency measure. The Commission shall report such information to:

- (a) The Legislature, not later than the first day of each regular session; and
- (b) The Legislative Commission, if requested by the Chair of the Commission.

6. The provisions of this section do not apply to:

- (a) A provider of electric service that is subject to NRS 704.787; or
- (b) A provider of electric service that is listed in subsection 9 of NRS 704.7821 during any calendar year in which the total amount of electricity sold by the provider to its retail customers in this State during that calendar year is less than 1,000,000 megawatt-hours.

(Added to NRS by 2001, 2529; A 2005, 22nd Special Session, 85; 2019, 22)
