

Governor’s Office of Energy
GREEN BUILDING TAX ABATEMENT
CERTIFICATE OF ELIGIBILITY SUBMISSION
EXISTING BUILDING

- This application should be submitted to the Director if the project has been issued a registration number by the Nevada Governor’s Office of Energy (GOE) pursuant to the provisions of NAC 701A.010-290 and has proof that the building or other structure meets the equivalent of the silver level or higher of the Green Building rating system adopted by the Director.
- Remit this form and package with **\$1,000 fee** payable to the Governor’s Office of Energy.
- Complete all sections of this certificate of eligibility submission form and provide all additional required information and documentation, using attachments as necessary.
- Provide this certificate of eligibility submission form along with the required documentation within 48 months of the initial project registration with the Governor’s Office of Energy.

Send Certificate of Eligibility submission form and package to:

Dwayne McClinton, Director
Governor’s Office of Energy
via email to: bdeem@energy.nv.gov

For questions or clarifications, please contact:

Brian Deem, Management Analyst
Governor’s Office of Energy

Applicant Information:

Name:		
Address:		
City:	State:	Zip Code:
Phone:	Fax:	Email:

Owner of Affected Real Property (If Applicant is not Owner):

Name:		
Address:		
City:	State:	Zip Code:
Phone:	Fax:	Email:

Address of the Real Property:

Address:			
City:	County:	State:	Zip Code:
List each assessor’s parcel number (APN) directly affected by this abatement (attach additional sheets if necessary):			
Tax District in which the project is located:			

Information of contact person or tax abatement coordinator:

Name:		
Address:		
City:	State:	Zip Code:
Phone:	Fax:	Email:

Information of the third-party firm that provided the energy audit services on the project:

Name:		
Address:		
City:	State:	Zip Code:
Phone:	Fax:	Email:

Governor’s Office of Energy

Address of the Board of County Commissioners in which the real property is located.

Address:		
City:	State:	Zip Code:

The name and address of the City Manager and the address of the City Council, if any, of the city that the property is located in (if applicable).

Name of City Manager:		
Address:		
City:	State:	Zip Code:
Phone:	Fax:	Email:
Address of City Council:		
City:	State:	Zip Code:
Phone:	Fax:	Email:

Provide the following details for each building or other structure included within the project: (attach additional documentation as needed).

Square footage:	Number of floors:
Actual Use:	
Final cost of energy-efficient improvements completed after registration of the project:	
Actual date of completion of the retrofits:	

Provide baseline usage (prior 12 months) and current usage and percent savings:			
	Electricity (kWh):	Gas (Therms):	Water (kGal):
Baseline kWh/Therms/Gallons:			
Current kWh/Therms/Gallons:			
Percent Savings from Baseline to Current:			

Governor’s Office of Energy

1. Attach an updated project narrative and include the applicable LEED or GG version and rating system upon which the project’s certificate is based.
2. Attach an original or copy of a letter from GBCI or GBI informing the applicant that the building or other structure identified in this project meets the silver level or higher under the LEED standard or the equivalent of two Green Globes or higher under the Green Globes standard.
3. Attach official documentation issued by the GBCI or GBI identifying the total number of points achieved for the overall rating as well as the LEED Scorecard and report or Green Globes Assessment report identifying the specific energy points achieved as well as the points achieved under each additional category.
4. Attach the documentation submitted to the GBCI or GBI to obtain points for water efficiency including an annual summary of the utility data submitted..
5. Attach documentation that demonstrates how the project achieved the applicable points within the Optimized Energy Performance or Energy Consumption category as applicable.
6. Attach a copy of the Energy Star Statement of Performance or equivalent analysis which shows the performance rating against the peer group, along with a copy of the utility data submitted to obtain the rating.
7. Attach the documentation obtained from an independent third-party that performed the ASHRAE energy audit which identifies the implemented energy conservation measures.
8. Attach all supporting documentation identifying the energy efficiency measures that were implemented after the project was registered with the GOE, as well as the cost of each measure and the completion date.
9. Attach a statement indicating whether any funding for the acquisition, design or construction of the building or other structure, and associated land, is being provided by a governmental entity in this State. If funding is provided by a governmental entity, include a list of all sources of funding.
10. Attach a statement indicating whether the building or other structure is receiving or is expected to receive any other abatement or exemption pursuant to NRS 361.045 to 361.159, inclusive, or NRS chapter 701A from the taxes imposed on real property by NRS chapter 361.
11. Attach a statement indicating whether the building or other structure, or any part thereof, is or is expected in the future to be exempt from the taxes imposed on real property by NRS chapter 361 pursuant to any provision of law other than NRS 361.045 to 361.159, inclusive, or NRS chapter 701A.
12. Identify any information included in this application, which the applicant considers to be confidential (Sec. 23.4) and provide a citation to the specific statute or other legal authority that makes the identified information, confidential.

Governor’s Office of Energy

I, the undersigned, hereby grant to the Governor’s Office of Energy access to all pertinent and relevant records and documents of the aforementioned company. I understand this requirement is necessary to qualify and to monitor for compliance of all statutory and regulatory provisions pertaining to this application.

Being owner, member, partner, officer or employee with signatory authorization for the business, I do hereby declare that the information herein stated is true and correct to the best of my knowledge and understanding.

Party authorized for signature (print):

NOTE:

- 1) A project utilizing an aggregated campus-wide energy score will only be issued one tax abatement encompassing all of the structures used to calculate that energy score. The aggregated campus-wide energy score cannot be used for any other project.
- 2) Only one partial tax abatement may be awarded per parcel. If a building or other structure encompasses more than one parcel, only one partial tax abatement may be awarded for the building or structure.
- 3) If a partial tax abatement has ever been awarded for a parcel or for a building in the past, no partial tax abatement may be awarded for that parcel or building in the future in accordance with NAC 701A.220(5).
- 4) If the project cannot demonstrate energy efficient improvements completed between the time the project is registered and the submission of proof, the project will not be awarded a tax abatement. All improvements that contribute to the applicable energy points and overall rating must be completed after the project has received a project registration number from the GOE.
